Nursing and Midwifery students only.

Section 1: Information

Students enrolled in programs offered by our School are **REQUIRED** to provide evidence of their immunisation status for the diseases listed in the table below. This list is supported by the Australian Immunisation Handbook 2015 update and Queensland Health policy. **Screening verification for specified blood borne diseases is also required – see section 3.** The attached immunisation record is to be completed by a **REGISTERED MEDICAL PRACTITIONER**. It is most important you obtain your past immunisation record (s) and take this information to the medical practitioner who will complete this form for you.

| Name of disease | Requirements – Nursing and Midwifery Students Only | | | | |
|--|--|--|--|--|--|
| Pertussis*, Diphtheria, Tetanus | Complete childhood vaccination course (CCV). Booster as adolescent/adult within last 10 years. | | | | |
| Measles*, Mumps* & Rubella* | 2 doses at least one month apart or failing this a blood test showing immunity | | | | |
| Varicella (Chickenpox)* | Fully immunised (2 varicella vaccinations) or a blood test showing immunity | | | | |
| Influenza** | Date of vaccination (annual vaccination in autumn strongly recommended) | | | | |
| Hepatitis A | Not routinely required - recommended for Health Care Workers who work in remote Indigenous communities or with Indigenous children in NT, Qld, SA and WA, and other specified healthcare workers in some jurisdictions | | | | |
| Hepatitis B* | Completed age appropriate immunisation course AND serology results confirming immunity | | | | |
| Screening for blood-borne* infectious diseases | Prospective Nursing and Midwifery students need to screen for Hepatitis B & C and HIV infection as these infections can limit the type of surgical procedures the student/nursing graduate can be involved with | | | | |
| Tuberculosis (TB)* | Must have documented recent test (skin or IGRA / Quantiferon Gold for TB blood test within previous 2 years) to screen for latent Tuberculosis at entry to the study program. Please note the test doesn't need to be repeated during the program unless exposure to tuberculosis has occurred | | | | |

Notes

Mandatory requirement *

Influenza**

Healthcare workers can transmit influenza to persons at increased risk of complications from influenza infection. Vaccination in the autumn of each year greatly reduces this risk. Healthcare students are strongly encouraged to have Influenza vaccination annually. Students should retain proof of vaccination in the event that it is required for a particular placement site/hospital attachment.

Tuberculosis (TB)

Students can undergo pre-screening free of charge from the Metro South Clinical Tuberculosis Service, Princess Alexandra Hospital Campus, via Cornwall Street, Woolloongabba, Brisbane (there can be long waiting times for testing). Alternatively this service may be obtained from private pathology laboratories on referral from a medical practitioner (charges will apply – please confirm cost with service provider). The result of the screening is required prior to completion of the attached form Students should make arrangements to obtain any required vaccinations immediately and return the completed immunisation

Students should make arrangements to obtain any required vaccinations immediately and return the completed immunisation record along with any supporting documentation, if appropriate.

Records will remain incomplete until all requirements have been met. Students are reminded that clinical placements and access to clinics will <u>not be permitted</u> unless this record is complete

Section 2: Evidence of Vaccination / Immunisation

| Student Name: (BLOCK LETTERS) | Surname | First N | Name | Other Names |
|----------------------------------|---------|----------------|------|-------------|
| Student Number: | | Date of Birth: | | |

This section must be completed by a medical practitioner

| Name of disease | Acceptable evidence of protection | Tick | Date(s) |
|--|--|------|---|
| Diphtheria, Tetanus, Pertussis | One documented dose of DTPa vaccine within last 10 years (in addition to CCV) | | Date/ Pertussis booster next due:/ |
| Measles, Mumps, Rubella | Documented evidence of 2 doses of MMR vaccine given at least 28 days apart (both doses must be given before signing the form) OR The student is immune to measles, mumps and rubella | | Dose 1/ Dose 2/ OR Serology report confirms immunity to measles, mumps and rubella Report date// Result: |
| Chickenpox (varicella) | Documented evidence of 2 doses of varicella vaccine given at least 28 days apart (both doses must be given before signing the form) OR The student is immune to varicella | | Dose 1/ Dose 2// OR Serology report confirms immunity to varicella Report date// Result: |
| Influenza | A dose of vaccine given annually is highly recommended | | See Influenza ** notes above |
| Hepatitis A | Not routinely required – see table in section 1 | | |
| Tuberculosis | Screening test (skin test or blood test IGRA or Quantiferon gold for TB) in the last 2 years | | Report date// |
| | The student has been fully vaccinated (please write in dose dates If known) AND has produced protective antibodies against hepatitis B. | | Dose 1/ Dose 2/ AND Report Date:/ Dose 3/ Result: |
| Hepatitis B 2 dose course appropriate for adolescent schedule only. | OR The student is currently undergoing vaccination against hepatitis B (and will complete the 3 dose schedule and serology). Please write in dose dates. | | Dose 1/ Dose 2/ Dose 3/ |
| | OR Not susceptible to hepatitis B. Evidence of previous hepatitis B exposure shown on serology | | Evidence sighted – date// |

Section 3: Exposure-prone Procedures Statement

To be completed by a medical practitioner

An exposure-prone procedure (EPP) is a procedure where there is a risk of injury to the Health Care Worker (HCW) resulting in exposure of the patient's open tissues to the blood of the worker. These procedures include those where the worker's hands (whether gloved or not) may be in contact with sharp instruments, needle tips or sharp tissues (spicules of bone or teeth) inside a patient's open body cavity, wound or confined anatomical space where the hands or fingertips may not be completely visible at all times.

Blood borne Infectious disease screening and fitness to perform exposure prone procedures

Healthcare workers **must not** perform exposure prone procedures if they are:

- HB e Antigen positive or HBV DNA positive (using an approved sensitive real time PCR assay)
- HCV RNA positive (by PCR or similar test)
- HIV antibody positive (even if virus levels become undetectable on appropriately monitored anti-retro-viral therapy)

Screening Verification Details

| Medical Practitioner Statement | |
|---|--------------------------|
| I have screened this student for hepatitis B & C and HIV infection and either the student is not infected on testing, or an Australian registered Infectious Diseases physician, Gastroenterologist, Hepatologist or Occupational Medicine Physician has certified that further testing has confirmed that the student is able to safely perform EPP. | Doctor's signature Date |
| OR | |
| The student cannot safely perform EPP as confirmed by Infectious Diseases physician, Gastroenterologist, Hepatologist or Occupational Medicine Physician. | Doctor's signature |
| | Date |

Section 4: Medical Practitioner Declaration

I declare that the requirements specified above have been assessed and actioned in accordance with the immunisation status of the student named on this form, and have been entered above in compliance with the immunisation entry requirements for the Nursing and Midwifery programs at UQ. The student has been made aware of any vaccination or serology follow up in relation to completing the requirements of this form.

| Name of Medical Practitioner/Provider number | Signature: | | Date |
|---|------------|-------|------------|
| | | | |
| | | | |
| | | | |
| Is further follow up required? Please insert details: | | Pract | ice Stamp: |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |

Section 5: Student Declaration

I understand the requirements for Nursing and Midwifery programs outlined in this document and agree to submit this information as a true and correct record of my compliance with these requirements. In addition, I agree to provide updated information as necessary and in particular in relation to any required vaccinations or proof of my status regarding testing for blood borne diseases.

| Student Name: (BLOCK LETTERS) | Surname | First N | ame | | | Othe | er Name | es | |
|----------------------------------|---------|------------------|------|-----------------|-----------------|------|-----------------|----|-----------------|
| Phone No.: | | Email: | | | | | | | |
| Student Number: | | Year of Program: | | 1 st | 2 nd | | 3 rd | | 4 th |
| Signature: | | | Date | : | | | | | |

The Immunisation record is to be completed in consultation with a Registered Medical Practitioner and returned by the student to:

| School of Nursing, Midwifery and Social Work Submission method: online only (via InPlace) Students are required to submit all placement documents through UQ's placement management system, InPlace. You can access InPlace via your my.UQ dashboard, or through the my.UQ Manage My Program page. Check 'Staff and Students' on the InPlace homepage and log in using your UQ student login details. | inabs.uq.edu.au/piacement-ready |

| Section 6: For Office Use Only | | | | | | | |
|----------------------------------|---------|------------------|--------------------------|-------------------|-------------------|-------------------|--|
| Student Name: (BLOCK LETTERS) | Surname | First N | ame | | Other Name | es | |
| Student Number: | | Year of Program: | □ 1 st | □ 2 nd | ☐ 3 rd | ☐ 4 th | |

Immunisation Record

| Immunisation record complete: | Yes / No | Date verified: | |
|-------------------------------|----------|----------------|--|
| Name of office worker: | | Signature: | |

^{*} Students that have not attained Hepatitis B Immunity should be referred to UQ Healthcare for further specialist advice.

Exposure Prone Procedure Statement – Nursing and Midwifery students only

| EPP statement satisfactory: | Yes / No | Date verified: | |
|-----------------------------|----------|----------------|--|
| Name of office worker: | | Signature: | |

If 'NO' to either of the above, further action is required, and details must be provided in Section 7.

^{*} Students that have not attained a satisfactory EPP statement should be referred to UQ Healthcare for further specialist advice.

Section 7: Outstanding Requirements
