

Health, Safety and Wellness Training Needs Analysis

The below list represents *a selection of the health and safety training courses* offered at the University of Queensland that may be required for you to carry out your work safely and efficiently. Please note - additional safety training may also be required, and task specific safety training should be arranged by your Supervisor. Your safety training requirements should be discussed regularly with your Supervisor, and will depend on your experience, prior training and the nature of your work activities.

Training	Training is Required / Recommended	Required?	Source:
Health, Safety and Wellness Induction	All UQ Workers	Yes	Workday / Blackboard
Annual Fire Safety Awareness Training	All UQ Building occupants	Yes	Workday / Blackboard
Local Site HSW Onboarding Induction	All UQ Workers	Yes	Supervisor and/or Local WHSC/ Induction Officer
Laboratory Safety Induction	All UQ Laboratory Workers	Yes/No	Workday / Blackboard
Facility Onboarding Induction	All UQ Laboratory / Workshop Workers	Yes/No	Facility Manager
Biosafety Training	All persons working with Biologicals, or in an OTGR certified facility (PC1, PC2, PC3)	Yes/No	Workday / Blackboard
Biosecurity Safety and Compliance	Users of Imported Biosecurity materials	Yes/No	Workday / Blackboard
Chemical Safety Training	Workers using hazardous chemicals	Yes/No	Workday / Blackboard
Compressed Gases Safety	Workers using compressed gases	Yes/No	Workday / Blackboard
Fieldwork Safety Training	Field Workers <u>and</u> Supervisors	Yes/No	Workday / Blackboard
Computer Workstation Self-Assessment tool	Workers using computer workstations	Yes/No	Online tool
Hand Tool Safety	Persons working with hand tools e.g., Maintenance, Workshop, Field and Lab Workers	Yes/No	Workday / Blackboard
Supervisor Work Health and Safety Responsibilities	Supervisors and Managers of staff/students (including academics who supervise staff/students)	Yes/No	Workday / Blackboard
